

Conditions for Successful Applicants

- We strongly encourage all applicants to review the sample application and budget provided on the website. Incomplete applications will not be considered.
- You must use the application and budget templates provided online by the CPSIF Committee.
- It is also highly recommended for a representative from your organization to attend the training during Clubs Orientation hosted by the Engineering Society.
- If you are not able to attend Clubs Orientation, it is recommended that you connect with a committee member listed on the website to review your application to ensure its good standing prior to the application deadline.
- At the end of the academic year (April 30), all successful student organization are required to submit a summary statement describing the impact of the funding and the outcomes of their club/event activities based on the four pillars outlined above to the CPSIF Committee. In addition, you may be required to report on some or all of the descriptions you have provided on this form. Please keep a copy for your reference. Description details of what to report in the statement will be included with positive decisions only.
- All promotional and/or marketing materials should recognize supporting units, which are: Engineering Society, Faculty of Applied Science and Engineering at the University of Toronto, Skule Alumni, and/or specific departments / divisions (logos to be distributed upon funding approval).
- Please keep CPSIF Committee staff apprised of all of your organization's events and projects, especially of the activities in which you will involve alumni.
- The student club charter (or constitution) must be made available to the CPSIF Committee upon request.
